RE: 2018 Local Street Paving Project  
Chapman Street  
Forest Street (M-66 to Kaiser Street)  
Kaiser Street  
King Street (M-21 to West Fargo Street)  
West Fargo Street (M-66 to Kaiser Street)

Dear Resident,

As you may be aware, the City of Ionia will be resurfacing the above referenced streets as part of its ongoing street maintenance program. The City Council recently accepted a bid from CL Trucking & Excavating for the project. The cost of the project will be paid for by the City's Local Street Fund. A special assessment WILL NOT be levied to pay for the project.

Scope of Work:

The project involves the removal and replacement of sunken/damaged concrete curb and sidewalk sections, installation of sidewalk in some of the "gaps" in the system that exist along some of these streets, and the removal of the existing asphalt surface and the placement of new asphalt.

Project Time Frame:

The project is tentatively scheduled to begin September 24, 2018 and be completed by October 20, 2018, weather permitting. A copy of the project schedule as provided by the contractor is enclosed.

Project Oversight:

The City's project engineer, Fishbeck, Thompson, Carr & Huber will provide project oversight with Mr. Steve Schmidt assigned as the on-site inspector. Any problems that you encounter due to the project can be conveyed directly to Steve by speaking with him on-site or by contacting at (616) 446-8343.

2018 Local Street Repaving Project

Other Services:

The agencies or entities that deliver other services to you have been notified of the project. There should be no interruption of mail service. Granger has been notified of the project and access will remain for the trash and recycle trucks. The first round of leaf pick-up should not be impacted.

Emergency service providers (police, fire, ambulance) are aware of the project and the project's schedule.

Driveway Access:

Residents should have access to their driveways during the majority of the project. At times, when the asphalt is being pulverized and when the new asphalt is being placed, access may not be available and an alternative parking location will be necessary.

At locations where new sidewalk is being installed or where the curb at the driveway opening needs to be replaced, driveway access will not be permitted for about seven days as the curb is removed, new curb is poured and the new curb cures. This will be the case along the south side of West Fargo Street where the curb/sidewalk which is contiguous to the street will be removed and replaced.

Sprinklers/Invisible Dog Fence

If you have an underground sprinkler system or an invisible dog fence in your yard, please notify me of this fact so that I can share the information with Steve and with the contractor.

No On-Street Parking

On-street parking on the streets referenced herein; is prohibited Monday – Saturday between 7:00 am and 7:00 pm in order to accommodate construction work.

If you have any questions about this project, please feel free to contact me at 527-5776 or by e-mail at [jeppler@ci.ionia.mi.us](mailto:jeppler@ci.ionia.mi.us).

Sincerely Yours,

Jason Eppler  
City Manager
