

City of Ionia - Questions for Clarification - Stand-Alone AVL Units

Q: How many vehicles does the City of Ionia wish to track? Is there only a total of 9 vehicles?

A. 9 vehicles. Yes.

Q: Are all the vehicles part of the Dial-A-Ride service?

A. Yes.

Q: Will the AVL solution provide only locations internally for staff of the City of Ionia to view?

A. Currently, yes. We would like to have the option to move to a customer app.

Q: Does the City of Ionia have a demand response solution they are using to schedule the Dial-A-Ride trips? If yes, which solution is being used?

A. Yes. PC Trans

Q: Provide a map-based view of every bus on the road. Is this just for internal use or do you want the map viewable by a front facing app?

A. Currently, yes. We would like to have the option to move to a customer app.

Q: Be compatible with tracking/notification app for customer use. Is the City of Ionia currently using a tracking/notification app? If yes, what app is being used?

A. No.

Q: Be stand alone or be compatible with current scheduling/dispatch software. Which one?

A. It can be either.
