

Through the Mural Project, the community's rich history will again come alive on the brick exterior of the majestic Ionia Theatre. Once completed, the mural will provide a snap shot of history from the late 1800's to the 1960's. The locomotive depicts the mode of travel used by thousands of visitors, national leaders, the beginning of the industrial age, and those looking to settle in the community. The painting of the great Hotel Bailey that once sat where the Theatre stands today, represents a time of prosperity and a home away from home for weary travelers. The service station was one of Ionia's firsts and remained on the site for decades. It represents the leap from the depression era to a time when travel was as unlimited as was our imagination. The Ionia Theatre is located on the first block of the downtown. It was chosen as a site for the first mural to begin the story.

Please take a moment to review the multi-level donor campaign levels and join us as we begin to tell our community's story through the interpretation of art. We invite you to become a partner in the Ionia Mural Project and assist us in creating a gathering place for families, visitors and residents alike while sharing our community's history, one brush stroke at a time.
